“Opportunities are afforded for the development and exercise of different graces, so that we may, in our measure, “know how to be abased – and how to abound...both to be full – and to be empty” (Phil 4:12). But above all, that we may, amid varying circumstances, prove the unchanging faithfulness of God – and His sufficiency to supply our every need.”

"Therefore, if any man is in Christ, he is a new creature; old things are passed away, behold all things are become new." 2 Corinthians 5:17

The new creature is a work of free grace. There is nothing *in us*, to cause God to make us anew. By nature, we are full of pollution and enmity—yet now God forms the new creature. Behold the *banner of love* displayed! The new creature may say, "*By the grace of God I am what I am!*" In the *creation*, we may see the strength of God's arm; in the *new creature*, we may see the working of God's heart! That God should consecrate any heart and anoint it with grace—is an act of pure love! That He should pluck one out of the state of nature, and not another—must be resolved into sovereign grace! This will increase the saint's triumphs in heaven, that the lot of free grace should fall upon them—and not on others.

The new creature is a work of rare excellency. A natural man is *a lump of dirt and sin* mixed together. God loathes him! But upon the new creature is a spiritual glory—as if a piece of clay, was turned into a sparkling diamond!

Those are not new creatures, who continue in their sins and are resolved so to do. These are in the gall of bitterness and are *the most miserable creatures that ever God made*—except for the devils. These stand in the place where all God's arrows fly! These are the center where all God's curses meet!

An unregenerate person is like one in *debt*—who is in fear of being *arrested by death* and carried prisoner to hell! Can that *traitor* be happy—who is fed by his prince in prison—only to be kept alive for his execution? God feeds the wicked like prisoners. They are reserved for the day of wrath!
